### **AAPS and RX Reach Agreement for Scientific Programming Oversight of Interphex**

Arlington, VA— AAPS will be the exclusive authority advising RX on scientific focus areas that affect the approximate 8,000-person event beginning in spring 2023 under a new agreement. AAPS will play a key role in reviewing and selecting programming for Interphex, particularly in areas focused on the intersection of business and science.

AAPS, a non-profit, professional society of 7,000 pharmaceutical scientists, is focused on raising the bar for science across the pharmaceutical industry. Through this new agreement, the organization will share its expertise with Interphex, an event that brings together business leaders and scientists from across the commercial contracting space.

“This is an important step for us in pursuing our mission of bringing scientists together to advance cures and therapies that will help patients around the world,” AAPS President Patrick Sinko, Ph.D., said. “We are going to support RX in creating a scientific experience at Interphex that helps industry professionals look into the future while solving today’s problems.”

“The collaboration with AAPS is an important next chapter for Interphex,” Marie Brown, Group Vice President at RX, said. “Interphex has traditionally been an event primarily focused on product discovery and finding solutions to effectively develop and manufacture quality products. We are excited that AAPS will elevate and expand the content to attract and satisfy the educational needs of research scientists and provide that important link between science and commercialization.”

AAPS and RX are now developing plans for the 2023 Interphex meeting, taking place April 25-27, 2023, at the Javits Center in New York City. The organizations look forward to announcing plans that will benefit the attendees and industrial partners participating in both organizations’ events, including AAPS’ National Biotechnology Conference (NBC), taking place April 23-26, 2023, in Philadelphia, PA.

###

**American Association of Pharmaceutical Scientists (AAPS)** is a 501(c)(3) non-profit association of more than 7,000 scientists and professionals employed in academia, industry, regulatory, and other research related to the pharmaceutical sciences worldwide. Its mission is to advance the capacity of pharmaceutical scientists to develop products and therapies that improve global health, which members pursue through four peer-reviewed journals and a variety of events in person and online. [www.aaps.org](http://www.aaps.org)

**INTERPHEX** has been, and continues to be, the premier pharmaceutical, biotechnology, and device development and manufacturing event where you can “Experience Science through Commercialization.” The event is based in New York and brings approximately 8,000 global industry professionals and industry leading suppliers together to “Learn it, Experience it, Procure it” through a unique combination of exhibits, demonstrations, partnering opportunities, networking and no cost technical conference to leverage quality, efficiency, and cost effectiveness in today’s ever-changing global market. INTERPHEX offers annual domestic and international industry events and educational opportunities around the world. INTERPHEX and INNOPHEX together, offer the very latest intelligence, cutting-edge technologies, and state-of-the-art innovation throughout the product development life cycle. Follow INTERPHEX on Facebook, LinkedIn, Instagram, YouTube, and Twitter. Interphex continues the learning beyond the show floor. For more information, visit [www.INTERPHEX.com](http://www.INTERPHEX.com)

**RX** is in the business of building businesses for individuals, communities, and organizations. We elevate the power of face-to-face events by combining data and digital products to help customers learn about markets, source products, and complete transactions at over 400 events in 22 countries and regions across 43 industry sectors. RX is passionate about making a positive impact on society and is fully committed to creating an inclusive work environment for all our people. RX is part of RELX, a global provider of information-based analytics and decision tools for professional and business customers. [www.rxglobal.com](http://www.rxglobal.com)
