IMPORTANT ANNOUNCEMENT REGARDING INTERPHEX 2020

NEW YORK, NY – March 10, 2020 –[International Pharmaceutical Expo \(INTERPHEX\)](#), the premier event dedicated to pharmaceutical and biotechnology innovation, technology and knowledge from development through commercialization, will be postponed due to the COVID-19 virus. INTERPHEX 2020, scheduled for April 28th through 30th at the Javits Center in New York City, will now take place later this year in New York.

“We want to express our concern for those impacted by COVID-19,” said Randy Field, Group Vice President, Reed Exhibitions. “We have been closely monitoring developments and reviewing guidance related to the COVID-19 virus from federal, state and local authorities and public health officials, including the United States Centers for Disease Control (CDC) and the World Health Organization (WHO). While we recognize and appreciate how important INTERPHEX is to the industry, we also are aware that this is a global industry and many of our customers are faced with travel restrictions. More importantly, the INTERPHEX community is uniquely equipped to support authorities and have a positive impact on addressing the COVID-19 virus. Therefore, we have made the decision to postpone INTERPHEX 2020 to dates that will enable the industry to regroup, reflect and get back to business.”

INTERPHEX’s mission is to be the event where industry professionals and leading suppliers come together to find solutions to develop and manufacture cost-effective, quality therapeutics for the global population. The INTERPHEX team is determining new dates for INTERPHEX 2020 and will make an announcement shortly.

“First and foremost, it is our responsibility to prioritize the health and safety of our attendees, exhibitors, association and publication partners and staff,” said Kate Scott, Event Director, INTERPHEX. “While we recognize the challenges and inconvenience the postponement causes, we believe this is the right decision for our customers and the industry in general, which is a vital part of getting the pharmaceutical supply chain back on track post-outbreak.”

About INTERPHEX

For 41 years, INTERPHEX has been, and continues to be, the premier pharmaceutical, biotechnology, and device development and manufacturing event where you can “Experience Science through Commercialization.” Sponsored by the Parenteral Drug Association (PDA), the event is based in New York and brings over 10,000 global industry professionals and 625+ industry leading suppliers together to “Learn it, Experience it, Procure it” through a unique combination of exhibits, demonstrations, partnering opportunities, networking and no cost technical conference to leverage quality, efficiency and cost effectiveness in today’s ever-changing global market. INTERPHEX offers annual domestic and international industry events and educational opportunities around the world. INTERPHEX and INNOPHEX together, offer the very latest intelligence, cutting-edge technologies and state-of-the-art innovation throughout the product development life cycle. Follow INTERPHEX on [Facebook](#), [LinkedIn](#), [Instagram](#), [YouTube](#), and [Twitter](#). For more information, visit www.INTERPHEX.com.
