

Lighthouse Worldwide Solutions
is the Winner of Controlled
Environments 2019 Reader's
Choice Award for Best
Monitoring / Instrumentation!

Lighthouse is honored to have won (**for the third year in a row**) the Readers Choice Award from Controlled Environments for our new ApexRemote with Pump sensor. Controlled Environments Readers' Choice Awards highlight the cleanroom equipment and supplies that readers judge most effective and trusted in their work. We sincerely appreciate the votes of all of our loyal customers!

The new **ApexRemote with Pump** sensors are the premier solutions for taking environmental monitoring programs to the next level. The Apex series of instruments provide many of the elements that are essential to world class Environmental Monitoring Systems. They are the Best-In-Class remote sensors that meet all industry standards.

Lighthouse has focused upon the following areas of advancements:

1. **Risk Mitigation:** The Risk Mitigation features of Self-Diagnostics virtually eliminates data errors and enables true data integrity.
2. **Built-in Vacuum Pump w/HEPA Filtration:** The self-contained vacuum pump includes HEPA filtered exhaust and will not contaminate the surrounding environment.
3. **Data Collection:** Apex provides real time continuous data collection at a cost-effective price per point, offering unmatched performance, accuracy and reliability.
4. **Decontamination Compatibility:** Apex provides all of these features in an enclosure that is compatible with industry standard decontamination processes.
5. **Plug & Play:** With the small footprint, the ApexRemote with Pump is a true out-of-the-box sensor that allows easy installation.

Best in Class

Data Integrity, Data Availability, Environmental Compatibility

If the integrity of your data is mission critical as it is in GMP regulated industries, if risk mitigation of data errors and sensor failures matters to you, if you need to wipe down your sensors frequently or you use VHP for room sterilization, the ApexRemote will delight you and become your instrument of choice for a solid Environmental Monitoring Program.

About Lighthouse Worldwide Solutions:

Founded in 1982, Lighthouse Worldwide Solutions is the world's leading supplier of real time contamination monitoring systems and airborne particle counters. The company has leveraged its superior software design, data integration ability and worldwide support offices to provide its customers with leading edge contamination monitoring solutions.
