

Dycem®

PRESS KIT

WHO WE ARE

Established in 1966, Dycem is a world-leading manufacturer of contamination control mats and flooring. We are a global organization with headquarters in Warwick, Rhode Island, USA and Bristol, England. We also have offices in Muntinlupa City, Philippines and The Woodlands, Texas, as well as contamination control specialists on the ground in all major hubs across the world.

50+

ESTABLISHED IN 1966. WE HAVE OVER 50 YEARS OF EXPERTISE

99.9%

DYCEM PRODUCTS PREVENT UP TO 99.9% OF CONTAMINATION

75%

DYCEM PRODUCTS PREVENT UP TO 75% OF AIRBORNE CONTAMINATION

OUR PRODUCTS

Dycem's polymeric mats and flooring capture and retain up to 99.9% of foot and wheel-borne contamination and up to 75% of airborne contamination.

All Dycem products are treated with Biomaster silver ion technology. Biomaster is an antimicrobial additive, which uses silver ions to inhibit the growth of organisms on contact, including E. coli, Salmonella, Listeria, and many more.

OUR MARKETS

Dycem's commitment to quality, customer satisfaction, and product innovation have earned the company recognition across the globe and a vast range of industries. Our contamination control specialists are on the ground across the world, ready to guide you through the process of installing Dycem, starting with an initial consultation and free site survey.

OUR CUSTOMERS

Thousands of cleanrooms, critical areas, and controlled environments are already protected by Dycem polymeric contamination control mats and flooring. Our customers include Sony, Lilly, Abbott, Johnson and Johnson, Motorola, Roche, IBM, Pfizer, Rolls Royce, Nestle, Bombardier, Intel, Seagate, Nokia, Honda, BMW, Heinz, and Texas Instruments.
